

Professional Laminators

SPL (A3)

SPL (A2)

SPL A3

The Fellowes® SPL Professional Laminators

- Designed for commercial use and professional use
- Hot and cold lamination, foil and mounting up to 2.9 mm total thickness
- Individual temperature settings for laminating 80 -250 micron pouches per side
- Designed for A2 / A3 size applications up to 450mm / 330mm wide
- User-friendly design offers numerous possibilities for customised settings
- Speed and temperature adjust separately; offers 9 different speeds and a temperature range of 40° - 140°C
- Control panel with digital display
- 4 minutes heat-up time
- Advanced temperature stabilisation ensures consistent lamination quality
- Fast - lamination speed up to 90 cm/min (can laminate A4 document in less than 30 sec)
- Heated roller technology – the most efficient lamination technology on the market
- Adjustment guide helps you choose up to 100 different application settings (depending on model size)
- Convenient - reverse mode stops the lamination process, if needed, and allows removal of documents from front
- Safe - machine turns off after 60 minutes when no longer in use
